CAREER OBJECTIVE

Third-year CS student who builds and ships: 10+ deployed projects across full-stack web, applied ML and RAG, plus campus leadership as a Google Student Ambassador. Seeking a software engineering / ML internship with real product work.

WORK EXPERIENCE

Data Science Intern • Internship Dec 2025 - Jan 2026
Future Interns, Virtual

Analyze datasets, perform data preprocessing and apply machine learning techniques to extract insights that support data-driven decisions.

Data Analyst Intern • Internship Aug 2025 - Feb 2026
Leads And Feeds, Virtual

Open Source Contributor • Internship Jul 2025 - Present
Open Source Connect, Virtual

Contribute to community projects: clean code, bug fixes and documentation.

Frontend Developer Intern • Internship Jul 2025 - Jan 2026
Alfido Tech, Virtual

EDUCATION

B.Tech, Computer Science & Engineering 2024 - 2028
Alliance University

CGPA: 9.00/10

PORTFOLIO

GitHub link ↗

PROJECTS

SharpAI - AI Interview Coach and Recruiter Platform ↗
Oct 2026

React, Express, SQLite, AI/NLP. Two-sided platform: candidates take voice/video mock interviews with AI follow-ups; recruiters get async screening links, ranked leaderboards and scorecards. Resume-based questions, Hindi/English support, a 1,330-company practice catalog with sector-based interview templates, and automated tests for scoring and recruiter workflows.

PriceLens - Used Vehicle Resale Value Estimator
Oct 2026

Node.js, Express, PostgreSQL, LightGBM. Estimates low/fair/high asking-price ranges for used cars and bikes with LightGBM quantile models trained offline on real listing data. Deal checker with red-flag checklist, depreciation curves, saved-item vault, and a public methodology page that states data limits honestly.

TheInsider - Placement Knowledge App with RAG ↗
Oct 2026

Express, SQLite, BM25 RAG, logistic regression, PWA. Placement-interview knowledge base with sourced Ask AI answers: BM25 retrieval over chunked experiences with extractive fallback, plus an optional LLM layer. Logistic-regression Selection Predictor trained only on real outcomes with honest cold-start limits; scrypt auth, rate-limited APIs, installable PWA. Live on Render.

Rakshak - On-Device Scam Alert for Android
Oct 2026

Java, Android SDK. Native Android app that reviews notification text on-device through a rule engine (urgency, credential requests, payment pressure, URL structure) and raises private local alerts. Privacy-first by design: no INTERNET permission, no accounts, no cloud; findings expire after 7 days.

Zippy - Quick-Commerce Web App ↗
Oct 2026

React, Express, SQLite, Leaflet, Razorpay (test). Zepto-style grocery app with auth, cart, coupons, orders, wishlist, live order-tracking map and an admin panel. Live on Render.

Boundary - IPL Win-Probability and What-If Lab ↗
Oct 2026

Python, ML. IPL win-probability and what-if lab. Live on Render.

Perihelion - Exoplanet Transit Detection ↗
Oct 2026

Python, ML. Exoplanet transit detection on NASA Kepler data. Live on Render.

VoxTrace - Multimodal Deepfake Detection ↗
Oct 2026

Python, pretrained models. Multimodal deepfake detection for video, audio and text; local research build.

EMBER - Bengaluru House-Price Predictor ↗
Oct 2026

Bengaluru house-price predictor running fully in the browser. Live on Vercel.

MEHFIL - Bollywood Movie Recommender ↗
Oct 2026

Bollywood movie recommender with TF-IDF similarity, mood/genre discovery. Live on Vercel.

SKILLS

- Java
- JavaScript
- CSS
- Express.js
- PostgreSQL
- Pandas
- Git
- Netlify
- C Programming
- SQL
- React
- REST API
- scikit-learn
- NumPy
- GitHub
- Vercel
- Python
- HTML
- Node.js
- SQLite
- Logistic Regression
- Android
- Rendering

EXTRA CURRICULAR ACTIVITIES

- Executive Member - OSEN, Take part in community initiatives focused on learning, collaboration, innovation and leadership.
- Executive Member - Google Developer Group, Organize events, workshops and knowledge-sharing sessions; collaborate with developers and industry professionals to support the campus tech community.
- Vice Leader - NEC 2025, E-Cell IIT Bombay, Coordinate campus workshops, competitions and student engagement programs; mentor peers and support collaboration across teams.
- Executive Intern - E-Cell Alliance University, Help organize entrepreneurship workshops, startup events and mentorship sessions; guide students in ideation and business planning.
- Campus Ambassador - Techfest, IIT Bombay, Promote events, workshops and competitions on campus; encourage student participation and support outreach.
- Innovation Ambassador and Coordinator - AUIIC, Organize innovation workshops, webinars, hackathons and mentorship programs; connect students with mentors, resources and innovation challenges.
- Design and Media Lead - Alliance Arohana, Create graphics, videos, presentations and digital content; oversee creative campaigns and media strategies.
- Head Boy - Banyan Tree Schools,
- Google Student Ambassador, Represent Google on campus; organize workshops, info sessions and activities to help students explore Google technologies, products and programs.

ADDITIONAL DETAILS

- Team Inclusion cleared the second round of Smart India Hackathon 2025.
- Infosys Springboard Pragati Cohort 5 (Jun 2025 start).
